Snapshot report

Under the agreement for 2014
Bundaberg East State School received

Our full 2014 Agreement can be found here: 2014 Agreement

Our school strategies are showing substantial progress toward our targets

After reviewing our Great Results Guarantee agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximizing the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- The full implementation of Learning Plans for all students which specify goals, targets and strategies for every child. The plan is developed by parents, students and teachers biannually following a review of current student data both quantitative and qualitative. A review of the process via a survey marked 100% approval for this process from our parent community.
- Targeted teacher aide intervention. Based on student data, specific intervention and support programs were implemented by additional teacher aides for students at risk of failure and disengagement. Training for teacher aides was essential for the delivery of quality support.
- Extension programs in literacy and numeracy to increase the depth and breadth of student understanding.
- Provision of resources, electronic and hard copy material to support students in literacy and numeracy both at school and at home for example: Extension of school and home reading resources, Mathletics and Reading Eggs programs.
